

**IN THE UNITED STATES DISTRICT COURT  
FOR THE SOUTHERN DISTRICT OF WEST VIRGINIA  
HUNTINGTON DIVISION**

THE CITY OF HUNTINGTON,

Plaintiff,

v.

AMERISOURCEBERGEN DRUG  
CORPORATION, CARDINAL HEALTH  
INC., MCKESSON CORPORATION, and  
GREGORY DONALD CHANEY, M.D.,

Defendants.

Civil Action No. 3:17-cv-01362  
Judge David A. Faber

**DEFENDANT CARDINAL HEALTH INC.'S NOTICE REGARDING  
POTENTIAL NON-PARTY FAULT UNDER W.VA. CODE § 55-7-13d**

Defendant Cardinal Health, Inc. ("Cardinal Health"), by the undersigned counsel, hereby submits its Notice pursuant to W. Va. Code § 55-7-13d. Cardinal Health reserves the right to amend this Notice and allege that other non-parties were wholly or partially at fault, if such information is revealed through discovery or otherwise. Similarly, should discovery indicate that certain non-parties are without fault, Cardinal Health reserves the right to amend this Notice to reflect the same. Neither this Notice nor future amendments to it may be construed as waiving Cardinal Health's ability and right to argue and present evidence that non-parties are the sole and

proximate cause of any and all complaints, injuries, and damages claimed by the Plaintiff (“Plaintiff” or the “City”).

As provided in W. Va. Code § 55-7-13d(a)(2), “[f]ault of a non-party shall be considered if . . . a defending party gives notice no later than one hundred-eight[y] days after service of process . . . that a non-party was wholly or partially at fault” and provides the “best identification of the nonparty which is possible under the circumstances. . . .” If litigation of the Plaintiff’s claims in this case concerning opioid abuse in the City proceeds, it will necessarily involve all persons and entities who were involved in manufacturing, prescribing, dispensing, regulating, and using opioid medications in the City, including local doctors, pharmacies, manufacturers, government actors, and so on.<sup>1</sup> Although Plaintiff has not formally sued these additional entities and individuals, implicit its allegations against Cardinal Health is an allegation by the Plaintiff of wrongdoing by these and other non-parties, including the placing of suspicious orders and filling of unlawful prescriptions by pharmacists, unlawful prescriptions by doctors, and failure to act by state, local, and federal officials, among others.

Accordingly, Cardinal Health hereby notifies the Court and all currently named parties that if any diversion<sup>2</sup> is determined to have occurred in or into the City, and if fault is eventually to be allocated in order to apportion any reimbursement allowed to the City for its budgeted expenditures made to perform its public duties as a consequence thereof, then certain individuals

<sup>1</sup> See Transcript of Proceedings, *Cty. Comm’n of McDowell Cty. v. McKesson Corp., et al.*, No. 1:17-CV-00946, at 30:17–23 (S.D. W. Va. Mar. 28, 2017) (THE COURT: “If, if you’re proving an, an opioid epidemic here, wouldn’t you have to have all of the players in that epidemic in court which would include the pharmacies and the distributors and everybody else rather than just the . . . distributors and one doctor who prescribed some of the drugs?”).

<sup>2</sup> “Diversion” is defined by the West Virginia Board of Medicine in its Policy on the Use of Opioid Analgesics in the Treatment of Chronic Pain (9 September 2013) as “the intentional transfer of a controlled substance from authorized to unauthorized possession or channels of distribution.”

and entities in the categories described below must be wholly or partially at fault for such diversion, and that fault must be determined and allocated to them.

Plaintiff's Amended Complaint fails to provide factual allegations to support its generic, conclusory, group-pled allegations that target wholesale distributors with no identifying detail whatsoever regarding all the other participants in the closed legal system relating to controlled substances, without providing any factual allegations to support those generic, conclusory allegations, and without appropriate cognizance of the intervening criminal conduct that represents the clear proximate cause of any damages actually incurred by Plaintiff. Cardinal Health cannot accept and certainly cannot cure these fatal deficiencies, but will, if necessary, as information becomes available, make every reasonable effort to comply with the intent of W.Va. Code §55-7-13d(a)(2) by identifying and seeking the apportionment of fault. Cardinal Health lacks the authority, necessary information, ability to investigate, and knowledge necessary to completely and specifically identify all possible entities at fault in the context of Plaintiff's allegations at this time. Because this case is stayed and no discovery has been completed, Cardinal Health has not yet been unable to undertake measures such as obtaining potential discovery from the Plaintiff, the federal Drug Enforcement Administration ("DEA"), West Virginia Board of Pharmacy ("BoP"), West Virginia Attorney General, West Virginia Department of Health and Human Resources, West Virginia Bureau of Medical Services, various other law enforcement agencies that have jurisdiction, government and private officials and entities, pharmacies, doctors, and other sources.

Accordingly, Cardinal Health hereby notifies the Court and all parties that the following categories, entities, or individuals may be wholly or partially at fault for the injuries alleged in

Plaintiff's Amended Complaint:<sup>3</sup>

## I. Pharmacies

Cardinal Health distributes medications only to pharmacies holding valid licenses from the state and federal government authorizing them to dispense such medications. Plaintiff's Amended Complaint alleges that Cardinal Health failed to report suspicious pharmacy orders to the DEA and BoP. Implicit in this allegation is the further allegation that pharmacies within the City placed "suspicious" orders that were honored by Cardinal Health and the other defendants, and that controlled substances delivered in accord with those orders were diverted by those pharmacies in violation of their statutory, regulatory, and professional obligations. Despite the necessity that Plaintiff must know of such instances or it would not be able to make the allegations in the Amended Complaint, Plaintiff does not identify any such pharmacies. Accordingly, Cardinal Health identifies the following pharmacies within the City as non-parties at fault:<sup>4</sup>

<b><u>Name</u></b>	<b><u>Last Known Address</u></b>
1. Betsy Broh House	1625 Sixth Avenue Huntington, WV 25701
2. Big Bear Plus Pharmacy #259	2825 Fifth Avenue Huntington, WV 25701

<sup>3</sup> Cardinal Health has ascertained the last known addresses listed in this Notice to the best of its ability by referencing publicly available databases, public records, and other public information.

<sup>4</sup> Cardinal Health does **not** believe or assert that any of its customer pharmacies engaged in any diversion of controlled substances, but cannot say that it is not possible that some may have done so without Cardinal Health's knowledge. If and when Plaintiff admits that any pharmacy did not place suspicious orders, Cardinal Health will consider amending this Notice. In addition to the pharmacies within the City listed below, Cardinal Health reserves the right to supplement this Notice with pharmacies outside of the City, if it is revealed through discovery that such pharmacies dispensed opioid medications to residents of the City and Plaintiff alleges that such activity is the basis for damages alleged against Cardinal Health.

## **II. Pharmacists**

Cardinal Health anticipates that discovery will reveal the names of specific pharmacists and pharmacists-in-charge of the above-named pharmacies. If litigation of Plaintiff's generic, conclusory allegations ever leads to the identification of diversion, the individual pharmacies and pharmacists involved will be at fault, must be apportioned, and this Notice will be amended. These individuals will be named as non-parties at fault when their identities become known.

## **III. Prescribing Practitioners**

Plaintiff's Amended Complaint alleges that Cardinal Health failed to report suspicious orders to the DEA and BoP. Cardinal Health distributes medications only to pharmacies holding valid licenses from the state and federal government to dispense such medications. Such pharmacies are legally prohibited from dispensing such medications unless pursuant to a valid prescription from a licensed medical professional, registered with the DEA. To the extent the opioid medications delivered by Cardinal Health to such pharmacies within the City were dispensed pursuant to a prescription that was not issued for a legitimate medical reason, the prescribing practitioner's conduct in issuing the prescription was unlawful and/or negligent. Accordingly, Cardinal Health identifies the following licensed healthcare providers as non-

parties at fault:<sup>5</sup>

<sup>5</sup> If and when Plaintiff admits that any healthcare provider did not prescribe medications for an illegitimate purpose, Cardinal Health will consider amending this Notice. In addition to the healthcare providers within the City listed below, Cardinal Health reserves the right to supplement this Notice with healthcare providers outside of the City, if it is revealed through discovery that such healthcare provider prescribed opioid medications to residents of the City and Plaintiff alleges that such activity is the basis for damages alleged against Cardinal Health.

#### IV. Individuals Involved in Illegal Drug Sales

Many persons known or knowable to the Plaintiff's and state's law enforcement agencies have been involved in the illegal sale of opioid medications, heroin, fentanyl, carfentanil, and/or other illegal drugs within or into the City. Any harm the City may have experienced from illegal drug abuse was caused, wholly or in part, by illegal activities within or into the City. Cardinal Health cannot fully ascertain who these individuals are until it discovers and assesses the City's (and state's) law enforcement and prosecutorial information. Another source that may identify such individuals will be relevant searches of the BoP's Controlled Substance Monitoring Program ("CSMP") database. If the litigation proceeds and such persons are identified, this Notice will be amended accordingly. Upon information and belief, based on public records available to Cardinal Health, the following individuals have been involved in illegal sales of opioid medications, heroin, and/or other illegal drugs within the City. Accordingly, Cardinal Health identifies the following individuals as non-parties at fault:

#### V. Pharmaceutical Manufacturers

The following pharmaceutical companies develop, test, manufacture, label, warn, instruct, advertise, market, and promote prescription opioid medications. To the extent the opioid medications delivered by Cardinal Health to pharmacies within the City were improperly dispensed by reason of inadequate instructions or warnings or of false or misleading advertising and promotion by the manufacturers, their actions or omissions caused or contributed to the harm alleged by Plaintiff. Accordingly, Cardinal Health identifies the following manufacturers as non-parties at fault:

**VI. Non-Party Wholesale Pharmaceutical Distributors**

Cardinal Health is only one of numerous wholesale distributors who distribute medications to pharmacies within the City. Each is duly licensed, registered, and authorized to distribute controlled substances. To the extent that opioid medications were improperly dispensed by pharmacies, as alleged by the Plaintiff, those medications were supplied at least in part, to such pharmacies by wholesale distributors other than Cardinal Health. Absent discovery from the BoP and the pharmacies themselves, Cardinal Health cannot identify all such entities. Based on information that is available, Cardinal Health identifies the following distributors as potential non-parties at fault:

## VII. Health Insurers

As a wholesale distributor, Cardinal Health does not have any direct contact with patients. By reason of the federal Health Insurance Portability and Accountability Act (“HIPAA”), Cardinal Health does not know, and cannot find out, what practitioner prescribed opioid drugs for a patient, for what medical problem, with what regularity, or in what amounts. Nor does Cardinal Health know what pharmacy, hospital or clinic dispensed them. Upon information and

belief, providers of health insurance coverage, including private companies as well as Medicare, Medicaid, and the state and federal agencies that administer these and other government programs, may have had access to, or maintained, data reflecting which doctors mis- or over-prescribed opioid medications and which patients misused them, but failed to act on that information. If Plaintiff's Amended Complaint's generic, conclusory, group-pled allegations go forward, such Health Insurers may be "at fault" and must be apportioned. Accordingly, Cardinal Health identifies the following insurers as non-parties at fault and, as with the Notice in totality, reserves its right to amend as additional information becomes available through discovery or otherwise:

<u><b>Name</b></u>	<u><b>Last Known Address</b></u>
1924. Highmark Blue Cross Blue Shield West Virginia	Fifth Avenue Place 120 Fifth Avenue Pittsburgh, PA 15222-3099
1925. West Virginia Public Employee Insurance Agency (PEIA)	52160 National Road East St. Clairsville, OH 43950

#### **VIII. Federal, State, and Local Government Entities**

Pursuant to federal and state law, Cardinal Health is registered by the DEA and licensed by the BoP as a wholesale distributor of prescription drugs that are approved as safe and effective by the federal Food and Drug Administration ("FDA"). Cardinal Health fulfills orders of pharmacies that are also registered by the DEA and duly licensed by the BoP. The DEA regulates controlled substances under the federal Controlled Substances Act ("CSA"), including establishing annual production quotas for schedule II controlled substances. The Federal Bureau of Investigation has authority to enforce Title 21 of the United States Code, including the CSA. The BoP administers and enforces the West Virginia Controlled Substances Act, including the assessment of wholesale

manufacturers' systems of control against diversion of controlled substances, and regulation of the detection and treatment of "suspicious orders" by wholesale manufacturers. It also has the capability and authority to identify (from data sources that include data unavailable to Cardinal Health, such as the CSMP) possible diverting doctors/medical practitioners, pharmacies/pharmacists, and patients, and to take action itself or refer to other agencies (such as the West Virginia Board of Medicine) for action those it designates as potential diverters.

The West Virginia Board of Medicine, West Virginia Board of Osteopathic Medicine, West Virginia Board of Dentistry, and the West Virginia Board of Examiners for Registered Professional Nurses, are responsible for licensing practitioners who prescribe opioid medications within the City.

As a wholesale distributor, Cardinal Health does not have any direct contacts with patients. By reason of HIPAA, Cardinal Health does not know, and cannot find out, what patient received what medication and in what amounts. Cardinal Health does not know what prescriber will issue prescriptions after it distributes medication. Yet numerous federal, state and local agencies had knowledge, or the ability to know, of opioid prescribing and dispensing practices, as well as illegal drug dealing, and had authority to enforce the law. Their failure, individually and collectively, to take timely and effective enforcement action, caused or contributed to the harm alleged by Plaintiff. Accordingly, Cardinal Health identifies the following governmental entities as non-parties at fault:<sup>6</sup>

---

<sup>6</sup> Governmental entities may be "wholly or partially at fault" under W. Va. Code § 55-7-13d, whether or not they enjoy immunity from suit or otherwise cannot be named as a party defendant.

**Reservation of Right to Amend After Discovery**

Discovery has not yet begun in this case. Cardinal Health therefore reserve its rights to amend this Notice to add any and all non-parties that may have whole or partial fault for Plaintiff's alleged injuries. Similarly, should discovery indicate that certain non-parties do not have fault, Cardinal Health reserves its right to amend this Notice to reflect the same.

Dated this the 19th day of July, 2017.
